About Programme

The goal of this training cum workshop is to strengthen the capacity of medical/dental faculties to perform cutting-edge research in the field of drug discovery.

Who can apply?

- Training cum Workshop is open for Young Medical/Dental Faculties from nearby Medical institutions and universities. The number of participants is limited to **20** that can be selected on a first-come, first-served basis.
- Selected candidates must bring their own laptops at the time of workshop (Mandatory Requirement)

What does Participant gain?

Opportunity to enhance their skills and knowledge in molecular modeling, docking, virtual screening , binding site analysis, Molecular dynamics ultimately opportunity to participate in drug development projects.
