

## INFORMATION

### Criteria3 : Research, Innovations and Extension

**Key Indicator : 3.6 Extension Activities**

**Metric : 3.6.4**

**Metric Description : Institutional social responsibility activities in the neighborhood community in terms of education, environmental issues like Swachh Bharath, health and hygiene awareness, delivery of free/ subsidized health care and socio economic development issues carried out by the students and staff, including the amount of expenditure incurred during the last five years**

**Describe the impact of extension activities in sensitizing students to social issues and holistic development within 500 words**

The University promotes different extension activities in the neighborhood communities for student engagement and community participation. The different Departments of University arrange health check-up camps, exhibitions, role plays, rallies etc. during various health days, Swachhata week, road safety week, eco-friendly activities etc. Students are motivated to participate in need-based outreach activities, such as 'Swachh Bharat Abhiyan', campus cleaning, awareness programs about diseases to create awareness among the people. Participation in such activities imbues the sense of social responsibility, environmental awareness and improving the concept of wellness in society.

Department of ENT in the year 2022 and Feb. 2023 organized camps for screening of the ENT disorders, audiological screening and speech related issues in the school going children at S.S. Memorial Senior Secondary Public School Saifai District Etawah. Department of Dermatology organized world leprosy awareness program for the awareness among the general people in the year 2022-23 and 2023-24 continuous year. Department of Anesthesiology organized Nukkad Natak for public awareness on Basic Life Support. Department of Medicine conducted awareness program on first aid management with community participation. Faculty of dentistry organized multispecialty Health check-up camp collaboration with NGO U.P. Apradh Nirodhak Samiti, Lucknow. Anatomy Department organizes the body donation awareness programs time to time. Faculty of Nursing and Paramedical sciences organized career counselling & health awareness program in inter-colleges at nearby communities. Similarly Various Faculty Departments organize rally, exhibition, health talks, debate, Khushhal divas, patient counselling on a regular basis. Students actively participate in various villages & other community areas. These lead to emotional, intellectual, social, and inter-personal development of students.

Despite being primarily an institution, it has shown remarkable awareness in maintaining an eco-friendly campus. On visiting the Campus, one can experience the beautiful and graceful buildings, sublime lawns, spacious sports grounds, and lush green environment conducive for

teaching-learning process.

Faculty of Paramedical Sciences organized career counselling for the 11th and 12th students of Amitabh Bachchan inter College Saifai along with their principal at Department of Physiotherapy, Faculty of Paramedical Sciences, UPUMS, Saifai, Etawah on 24.01.2024 and for 9<sup>th</sup> and 10<sup>th</sup> students of P M Shri Kendriaya Vidyalaya Etawah on 9/02/2024 under Niramya mission and given valuable guidance for higher education in the field of Medical and allied health sciences.

The University focuses on the welfare of the local community, raising awareness of social issues and taking required steps for the benefit of society. These social outreach programs, such as Yoga for Health and Well-being, Plantation, Water Conservation and Water Harvesting Activity, personal hygiene and health, prevention of communicable disease, awareness of gender equality & others, had a significant impact on the Community and student's holistic development as they encountered people from various socioeconomic backgrounds in rural area.

These different programs organized in the campus and/or neighborhood community ultimately making aware the community peoples thus preventing the prevalence of disease.
